

Turntable TT 2.0 WF

Technical Data

Diameter 2.0 m Permissible load 500 kg

Point load 100 kg (at area of 10cm x 10cm)

Height 140 mm

Material carrier plate

Rotating speed adjustable between

Laminated wood

0.3 to 2.5 rpm

Rotating angle +400°/-200° Positioning accuracy +/- 0.5°

Motor Brushless DC motor 200 W

Interference suppression: 20 dB under limits EN 55022 class B Turntable drive Toothed belt drive (non-metallic)

Control cable Fibre optic lines
Remote control via IEEE interface

Current consumption max. 2 A

Voltage 208-230 VAC, 50/60 Hz, single phase

Temperature range +10°C to +35°C Total weight approx. 170 kg

Accessories Interface to SCU/MCU/NCD Controller

1.5 m power supply cable

Service manual

Brief description

The turntable **TT 2.0 WF** is especially designed for freestanding installation on surface floor in electromagnetic absorption chambers. The carrier plate is made of waterproof, laminated and lacquered wood.

A 285 mm diameter opening in the centre of the turntable provides the capability to insert power supply for testing.

The IEEE 488.2 (GPIB) bus provides an additional control option for all functions, when operated with the SCU/MCU or NCD Controller.

Information presented enclosed is subject to change as product enhancements are made regularly. Pictures included are for illustration purposes only and do not represent all possible configurations.
